

Adult/Adolescent SANE-SART Course
April 30-May 4, 2019
Wichita, Kansas

INSTRUCTIONS:

Please read both handouts and answer the following questions. When completed, sign the form and return it to Laura Jones at ljones@kcsdv.org.

MODULE 1 – History and Professional Nursing Considerations

Forensic Nursing – Scope & Standards of Practice

1. The Scope and Standards of Practice describe the _____ that nurses are expected to competently perform. (pg. ix or 21)
2. The Standards may be utilized as evidence of the _____ standard of care governing nurses practicing within the role, population, and specialty governed by this document. (pg. ix)
3. Forensic nursing is the practice of nursing globally when health and _____ systems intersect. (pg. 3)
4. A key domain in forensic nursing practice is that of responding to the _____ of sexual assault and abuse and intervening through actions in systems to mitigate the impact of sexual violence on individuals, families, communities, and society. (pg. 5)
5. Forensic nurses uphold ethical principles promoted by the nursing profession that protect the rights of, and advocate for, individual, _____, and communities in the systems that respond to them. (pg. 16)

Medical Response to Adult Sexual Assault – A Resource for Clinicians and Related Professionals

I have read the selected chapter from this book.
