**Gallegos** at 785-232-  
9784, ext. 320

or [tgalegos@kcsdv.org](mailto:tgalegos@kcsdv.org).

CLE and CNE credits  
pending.

### Training Objectives:

- Explain key concepts regarding the neurobiological impact of trauma on victim behavior and memory.
- Describe common behaviors and characteristics of offenders.
- Discuss bias and its impact on our work with victims and offenders.
- Appropriately apply concepts to improve investigations, prosecutions, and victim services.
- Analyze cautions to avoid oversimplifying, overgeneralizing, and otherwise inappropriately applying neuroscience to the criminal justice process.
