Zoom ASL Interpreter Guide

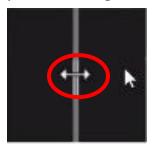

These instructions are for how to set your Zoom settings for the best view of the presenter and ASL interpreter when the presenter's screen is being shared.

First, you will need to set your settings to a **Side-by-side Mode**. To do that, follow these steps:

- 1. Make sure you have the most current version of Zoom for your desktop. Click here to download.
- 2. From your computer, sign into the Zoom.
- 3. While viewing a shared screen, select on **View Options** and choose **Side-by-side Mode**.

4. Hover your mouse over the line between the side-by-side screens until your pointer changes to arrows.

5. The arrows allow you to move the line to the left or right. This will adjust the size of the side-by-side screens. Select and drag the line to adjust the size of each to your preferred size.

6. <u>To exit</u> the **Side-by-side Mode** setting, select **View Options**, then uncheck the **Side-by-side Mode** by clicking on **Side-by-side Mode** again.
